The Musician's Guide Anthology (Second Edition)

Synopsis

The Anthology includes over 100 pieces featured in the text, now expanded with more counterpoint, nineteenth-century chromatic music, and twentieth-century impressionist and modernist works. The Anthology features music for all standard instruments and ensembles so that all students have the opportunity to study works composed for their instruments. This edition also features a new chronological index and short prose headnotes to each score, placing works in their historical context.

Customer Reviews

Purchased this for my music theory class in college to go with the workbook and textbook in the same series. It is a great, clear, and easy to read anthology. I often use it for things other than music theory (piano scores, score study, etc.) Great anthology!

Thank you

The book itself is great, but the binding was pretty ragged and it was missing a few pages.. It works for what I need it for but it could have been better.

Perfect.
