Crowdfunding is the process of funding a project or experiment by raising monetary contributions from a large number of people. Before crowdfunding, entrepreneurs came up against numerous challenges to protect funding like applying for a small business loan, searching for grants, borrowing money from family members and friends or using their savings. Crowdfunding, however, provides a method to obtain the funds needed to launch an idea quickly and with the support of an engaged community. Erick Walk with this enlightening step-by-step guide teaches us the types of Crowdfunding and how to run a campaign. I certainly enjoyed the chapter with the crowdfunding success stories.
