Flesh And Blood Low Price CD: A Scarpetta Novel

Synopsis

Dr. Kay Scarpetta is about to head to Miami for a vacation with Benton Wesley, her FBI-profiler husband, when she notices seven pennies on a wall behind their home. Is this a kids' game? And if so, why are all of the coins dated 1981 and so shiny they could be newly minted? Her cell phone rings, and Detective Pete Marino tells her there's been a homicide five minutes away. A high school music teacher was shot with uncanny precision. Yet no one heard or saw a thing. In this twenty-second Scarpetta novel, she is in the unsettling pursuit of a serial sniper who leaves no incriminating evidence except fragments of copper. The victims appear to have had nothing in common, and there is no pattern to indicate where the killer will strike next. Scarpetta goes looking for answers and comes face-to-face with shocking news that implicates her techno-genius niece, Lucy, Scarpetta's very own flesh and blood. Performed by Lorelei King

Book Information

Series: Scarpetta

Audio CD

Publisher: HarperAudio; Unabridged edition (June 30, 2015)

Customer Reviews

I was so disappointed in this book. I listened to the audio book and I was put out with the fact that the writer seems to be more intent on impressing the reader with her knowledge of forensics than creating memorable characters. I didn't, at any point, develop an interest in the characters. Then right at the end, I almost got involved and cared what happened to these people and the end is just as disappointing as the rest of the book. I won't purchase anything else by this writer. It was first experience and last with her.

It is very rare that I don't finish a novel or audiobook that I start. This was one of those rare cases. Some words to describe this story: tedious, pedantic, boring. This is not at all like nor up to the usual high standards of Cornwell's work.

This was a disappointment. SPOILER ALERT!!!! Bringing in a character from a previous book as the killer didn't allow for any character development and felt like the reader was cheated. That along with the ending made it feel like this book was just a prelude to the next book.

Well written thriller, but for anyone familiar with the pronunciation of Portuguese surnames, the mispronunciation of the Boston policeman, Machado (the ch should be pronounced as an sh) was distracting.

I love her book . This is another good one. Love all the Scarpetta Novel.

I have read all the Scarpetta novels. This one was good. Not great though.
