This is a very good book. I'm not good at economics at all and this book is very good at explaining ideas to non-econ people. Some chapters are a bit on the long side but if you take the time to read this text you will have a better understanding of things you probably didn't understand before you read this book..which I can't say for many economics books.

I was very happy purchasing this book because it was very cheap compared to the prize in my college bookstore. It's also in very good condition.

I ordered this book from Warehouse Deals, an subsidiary. Warehouse Deals sent the wrong book. However, quickly issued a refund and a return shipping label, but I had to re-order. Unfortunately, the mix-up means I will not have this book for the start of my Public Finance class.

The book arrived in the great condition it was said to be in and I received it in the timeframe

indicated. I have no complaints.
