Customer Reviews

Finally! The church's completely hymnal available on all your devices. CPH has some OK apps for

the Treasury of Daily Prayer and the Pastoral Care companion, but neither of those contains the complete package that the hymnal does as far as prayers, hymns and services. I've been waiting and hoping for an electronic edition so that I don't have to lug the book around. I always have my iPad or iPhone with me). The Kindle version of the LSB is the entire text as it appears in the print edition with the bonus of having ALL 150 Psalms available. That's a definite advantage. Having said that, Lutheran Service Book has several hymns that are available only in the Lutheran Service Builder software, but not in the print edition of the hymnal. Why not include those? If you're adding extra things that aren't in the print edition, why not add everything you can? It's a small niggle, but one that would have made the electronic edition not just equal to but maybe even better than the printed copy. Let's talk ease of use. The electronic edition of LSB is set up for super-easy navigation. It is well indexed and hyperlinked throughout. Add in the ability to bookmark pages as well as add highlights and notes, and I think the electronic edition is actually easier to get around. (In "live" tests versus a printed hymnal, I've found that finding a section or hymn is just about equal in the time it takes to do so). One of the things that makes the indexing better than most Kindle books is that the titles of hymns are hyperlinked so that you can easily jump between the hymn and its section listing (like "Easter" or "Redeemer" sections, etc.) and the main index.
