## Customer Reviews

I explored and bought this book because a student of mine mentioned being interested in this style of music. A primary characteristic of this book is single note bass lines. Arrangements contain some syncopation and occasional sixteenth notes. I like the selections in the book. I believe this will be satisfying to many late beginner through intermediate level learners and decent sight-reading material for early advanced students. I intend to use it with some of my students.

This book has helped my 10yr old daughter practice the songs she hears in church every Sunday!She been taking piano lessons for awhile but truly enjoys playing to her Sunday favorites

Was an intermediate player in my youth. Been years since playing. I can sightread everything easily. Pretty arrangements. Some of the songs getting dated now, but some I still enjoy.

My daughter is learning to play the piano and this song has many songs we like to play in church, I

am pretty excited about her learning them.

This book has all the good songs in it and the cover was like new not bent or torn pages no stains in book. I love Hillsong's music.

I'm a bigginer piano player and love being able to learn with this book and worship the lord. The musis is easy to understand!
